Family Physicians estimates that nearly 20 percent of family doctors are no longer accepting new Medicare patients. Parish Nursing: A Handbook for the New Millennium is an essential resource for nurses, pastors, and church leaders starting a parish nurse ministry to deal with the growing number of “forgotten” elderly persons.

Parish Nursing- Phyllis Ann Solari-Twadell 1999-01-11 Published in its first edition by the International Parish Nurse Resource Centre, Parish Nursing provides a variety of perspectives of faith community nursing roles and practice. Parish Nursing should find interested readers among scholars, students, and advanced practitioners in community and public health nursing. While the book had its initial roots in the Lutheran General Care System, it is a useful reference for nurses of all faiths.

Faith Community Nursing- P. Ann Solari-Twadell 2019-08-31 A multi-authored book, with editors and authors who are leaders in Faith Community Nursing (FCN) that aims to address contemporary issues in faith-based, whole person, community based health offering cost effective, accessible, patient centered care along the patient continuum while challenging contemporary health policy to include more health promotion services. Twenty-five chapters take the reader from a foundational understanding of this historic grass-roots movement to the present day international specialty assessment of the practice. The book is structured into five sections that describe both the historical advancement of the Faith Community Nursing, its current implications and future challenges, taking into account the perspectives of the pastor, congregation, nurse, health care system and public health national and international organizations. The benefits of this book are that it is intended for a mixed audience including lay, academic, medical professionals or health care executives. By changing the mindset of the reader to see the nurse as more than providing illness care, the faith community as more than a place one goes to on Sunday and health as more than physical, creative alternatives for promoting health emerge through Faith Community Nursing.

The Many Roles of the Registered Nurse-Debra Gillespie 2020-12-16 Nurses are the largest population of healthcare providers practicing in both urban and remote areas across the globe. Currently, the nursing profession is in the midst of a significant shortage as aging baby boomers retire and a nursing faculty shortage forces many colleges and universities to turn away qualified applicants. As healthcare needs of the population become more complex and technologies advance, our world needs nurses now more than at any other time in history. This book provides the reader with a wide overview of the many vast roles within the nursing profession, showing that the responsibilities are complex, challenging and rewarding. It will allow the reader to understand the current job market for nurses and perhaps even persuade some to choose this rewarding profession.

Faith and Health-Lynda W. Miller 2007-09-04 This book is a response to a need. Christian nurses, in a wide range of settings, perform their work based on beliefs drawn from their faith, but until now they’ve had no specifically Christian theoretical foundation to help them. Nurses working in the emerging field of “Parish Nursing” in particular need a framework that helps them explicitly link the tenets of faith and concepts of health in their practice, education, and research. Nurses of other faiths may also find the improved design useful in seeing a way to relate their own beliefs and values to their nursing. In the book’s Introduction the author tells why she devoted her doctoral research to theory development and how she went about doing...
The body of the book describes her nursing conceptual framework in depth, yet in an informal “reader friendly” style. The concluding chapter answers the question “Now what?” and helps readers make practical applications in their everyday lives. The four major components of the Faith and Health Framework are presented in detail: Person/Parishioner, Health/Shalom-Wholeness, Nurse/Parish Nurse, and Community/Parish, with the integrating component The Triune God. Described under each component are two organizing concepts, which in turn contain other key concepts, such as: mission, ministry, compassion, competence and communion. Various perspectives on the Framework are depicted in several full-color stained glass figures and in an inspirational poem written by the author. There are extensive bibliographic references and quotations from The Holy Bible, throughout, plus Appendices of relevant materials and resources.

The Nursing Profession - Norma L. Chaska 2000-10-18 This volume provides an in-depth and global study of nursing as a profession. The contributors project patterns about nursing now in to the future and present their views on how the profession should go advance. This volume contains 78 original chapters by 105 contributing authors, many of whom are elected Fellows of the American Academy of Nursing.

Psychiatric Advanced Practice Nursing - Eris P. Perese 2012-01-05 Here's an evidence-based, holistic approach to caring for psychiatric and mental health patients in outpatient settings. Using a biopsychosocial model, this text addresses mental health issues through stabilization of brain chemistry, individualized psychotherapy, and re-socialization into the community. Inside, you'll find an in-depth focus on specific psychiatric disorders including the elderly: inclusion etiology, logical basis, clinical presentation of adults, older adults, and children, co-morbidities, differential diagnosis, and treatment. There is also comprehensive coverage of the interventions and “Levers of Change” used to aid patients in their recovery, as well preventative interventions.

On Moral Medicine - Therese Lysaught 2012-07-20 In print for more than two decades, On Moral Medicine remains the definitive anthology for Christian theological reflection on medical ethics. This third edition updates and expands the earlier awardwinning volumes, providing classrooms and individuals alike with one of the finest available resources for ethics-engaged modern medicine.

Parish Nursing - Harold G Koenig 2012-10-12 Make parish nursing an alternative to shrinking healthcare resources! Because of shrinking healthcare resources, both human and monetary, parish nurses in the future will be called upon to deal with rising numbers of elderly and the end-of-life issues that accompany aging. Parish Nursing: A Handbook for the New Millennium is a guide to designing programs that can complement a congregation’s ministry priorities for senior adults, identifying strengths to reinforce and weaknesses to avoid. Stories from the fields of service capture the sweat equity and history of the re-emergence of nursing in churches. Parish Nursing: A Handbook for the New Millennium is a practical planning guide for parish nurses and congregational committee members with limited experience in program development. Suitable for use with multiple faith traditions, the book demonstrates how to take responsibility for health ministries without leaning on direction from local hospitals. Parish Nursing presents multiple practice models, intervention strategies, and methods of program evaluation responsive to boundaries and traditions of various communities of faith. Parish Nursing includes conceptual frameworks, program design options outlines from field-tested training modules program evaluation options and challenges and much more! In 2001, there were 35 million people over the age of 65 living in the United States—a number that’s expected to double in the next 10 years. The American Academy of Family Physicians estimates that nearly 20 percent of family doctors are no longer accepting new Medicare patients. Parish Nursing: A Handbook for the New Millennium is an essential resource for nurses, pastors, and church leaders starting a parish nurse ministry to deal with the growing number of “forgotten” elderly persons.

Community/Public Health Nursing - E-Book - Mary A. Nies 2013-12-27 Covering the nurse's role in promoting community health, Community/Public Health Nursing, 5th Edition is known for its “upstream” preventive focus and social justice approach, photo novellas with clinical stories, and a concise, readable style. It shows how, as a nurse, can take an active role in social action and health policy - especially in caring for diverse population groups. Expert authors Mary A. Nies and Melanie McEwen discuss today's issues and trends, and describe the key issues and responsibilities of contemporary community/public health nursing. An “upstream” focus addresses factors that are the precursors to poor health in the community: A “social justice” approach promotes health for everyone. Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Case Study: Application of the Nursing Process feature presents specific community components of the nursing process separately from individual and family. Clinical examples offer snippets of real-life client situations. Research Highlights boxes show the application of current research to chapter content. Ethical Insights boxes highlight ethical issues and concerns. Healthy People 2020 boxes summarize objectives and their importance in community health. Objectives, key terms, and chapter outlines introduce important concepts and terminology at the beginning of every chapter. Learning Activities at the end of each chapter ask you to apply concepts to the world outside the classroom. New Health Promotion and Risk Reduction chapter details the promotion of health and presents strategies that can identify risk factors for illness. Faith Community Nursing chapter reflects current terminology from the ANAO's Scope and Standards of Practice, and includes more coverage of the spiritual health of clients. Health: A Community View chapter expands its discussion of the continual challenges and strategies associated with the delivery of health care. Communicable Disease chapter includes new information about public health surveillance, outbreaks, and bioterrorism. Cultural Diversity and Community Health Nursing chapter features new content on complementary and alternative therapies.

Health Promotion in Communities - Carolyn Chambers Clark, EdD, ARNP,FAAN 2001-12-27 In her latest book, Dr. Clark applies a holistic, wellness perspective to community health, focusing on community strengths and resilience - such as positive nutrition, healthy environment, fitness, and self care skills - rather than risks and disease. Practitioners and students will find this book a practical and comprehensive resource for creating community health programs and promoting wellness among individuals and groups. Special features include: A step-by-step guide to planning, implementing, and marketing community health programs; Strategies for wellness nutrition, fitness, stress management, and smoking cessation,
Strategies for preventing violence in the schools and larger community; Tips on sharpening communication skills with individuals and groups; and Models of culturally sensitive health promotion programs.

Rediscovering a Ministry of Health-Helen A. Wordsworth 2015-02-20 It is not possible to look at the ministry of Jesus without noticing his concern for the poor and the sick. He not only had a huge sense of compassion for people who were suffering, but sent people out to heal the sick and tell them the Kingdom of God is near them. This concern for health and wholeness has inspired Christians through the ages as they have cared for the sick, founded hospitals, and been at the forefront of public health movements. In the nineteenth century, the church was one of the major influencers in initiating ministries of health, both through the work of its own deaconesses and the involvement of its members as they felt a sense of vocation to nursing and public health work. Florence Nightingale was a theologian and statistician as well as being a nurse leader. However, with the advent of state health provision and private health insurance schemes, the role of the local church in health has diminished. This book describes a simple way for churches to re-engage with health ministry and presents evidence that underlines not only a Biblical authenticity for its place in the mission of a local church, but also a compelling rationale for its implementation. It will be of interest to church leaders and all those involved in health care.

Parish Nursing-Verna Carson 2002-05-01 Parish Nursing presents a vision where nurses can serve as the vital link between secular healthcare and sacred faith-based systems. Nurses are able to provide direct ministry to members of the congregation and also be the communicators, teachers, motivators, and encouragers of others. The parish nurse could be a key person to link the two systems and provide a holistic care. Reading the stories of parish nurses gives us hope that this vision might be possible—indeed must be possible—if our aging society is to flourish in the years ahead.

Foundations of Faith Community Nursing Curriculum-Church Health Center of Memphis 2019

Parish Nurses and Health Ministers-Melody Olson 2005-10 This book is one of the few that shows the roles of people in faith communities in implementing health programs by people of different professional disciplines. It focuses on the professional nurse, clearly setting out the standards by which the nurse practices, education preparation and the types of programs they do. It is a book that can be used in programs educating parish nurses. But it also addresses non-nurses, including health ministry members, clergy, social workers, pharmacists and others in what they bring to the community. Examples of successful programs, historical development of modern parish nursing and health ministry and trends toward community transformation energized by the faith and health movement are presented.
