**The Bountiful Empire**

John Freely (2008-09-15) Storm on Horseback is both a dramatic history and, uniquely, a traveller's guide to the extraordinary heritage of the Byzantine Empire from Istanbul to Afghanistan. Freely's engaging narrative follows the history of the Empire from the sixth to the eleventh century, describing the fall of Byzantium in the eleventh century, the origins of modern Turkey, and the epic campaign of the First Crusade. Will appeal to anyone interested in the history of the East Mediterranean region and the Byzantine Empire.

**Living in the Ottoman Realm**

Christine Isom-Verhaaren (2016-04-11) Living in the Ottoman Realm brings the Ottoman Empire to life in all of its ethnic, religious, and cultural diversity. Based on Ottoman administrative records, this study of daily life in the empire is written in an engaging manner and written for a general audience.

**Living in the Ottoman Realm**

Christine Isom-Verhaaren (2016-04-11)
leading scholars assess the considerable expansion of Ottoman power and effervescence of the Ottoman intellectual and cultural world. They also investigate the challenges that faced the Ottoman state, particularly in the later period, as the empire experienced economic crises, revolts and drawn-out wars.

THE TRAVELS OF IBN BATUTA

The Rise of the Ottoman Empire
Paul Wittek 2013-05-20 Paul Wittek's The Rise of the Ottoman Empire was first published by the Royal Asiatic Society in 1938 and has been out of print for more than a quarter of a century. The present reissue of the text also brings together translations of some of his other studies on Ottoman history, notably interwoven writings, as the period from the founding of the state to the Fall of Constantinople and the reign of Mehmed II. Most of these pieces reproduce the texts of lectures or conference papers delivered by Wittek between 1936 and 1938 when he was teaching at Université Libre in Brussels. The present volume is the first to offer translations in English of Wittek's entire body of work on Ottoman history and his theories on the origins and development of the Ottoman state. The introduction by Colin Heywood sets Wittek's work in its historical and historiographical context for the benefit of those students who were not privileged to experience it firsthand. This reissue and recontextualizing of Wittek's pioneering work on early Ottoman history makes a valuable contribution to the field and to the historiography of Asian and Middle Eastern history generally.

Scholars and Sultans in the Early Modern Ottoman Empire
Abdurrahman A. I. 2016-10-31 This book examines the transformation of scholars into scholar-bureaucrats and discusses ideology, law and administration in the Ottoman Empire.

The Formation of Turkey
Claude Cahen 2014-06-11 From Byzantium to the Mongols to the Sultans of Rum, this acclaimed book offers an important insight into the evocative history of Turkey before the rise of the Ottoman Empire. Turkey forms a historical bridge between Europe and Asia and as such has played a special role throughout history. The rise of Constantinople and the later Ottoman Empire are well known; less well understood are developments in the three centuries in between. What led to the decline of Byzantium and what happened in the intervening years before the rise of the Ottomans? Translated from the original French, this classic work examines the history of the Turkey that eventually gave rise to an imperial power whose influence spanned East and West.
