Urban Protest in Seventeenth-Century France-William Beik 1997-01-28 This lucid and wide-ranging survey is the first study in English to identify a distinctive urban phase in the history of the early modern crowd. Through close analysis of the behaviour of protesters and authorities in more than fifteen seventeenth-
century French cities, William Beik explores a full spectrum of urban revolt from spontaneous individual actions to factional conflicts, culminating in the dramatic Ormee movement in Bordeaux. The 'culture of retribution' was a form of popular politics with roots in the religious wars and implications for future democratic movements. Vengeful crowds stoned and pillaged not only intrusive tax collectors but even their own magistrates, whom they viewed as civic traitors. By examining in depth this interaction of crowds and authorities, Professor Beik has provided a central contribution to the study of urban power structures and popular culture.

Urban Politics in Early Modern Europe
Christopher R. Friedrichs 2002-01-04 Urban Politics in Early Modern Europe is an important survey of the complex relationships between urban politics and regional and national politics in Europe from 1500 to 1789. In an era when the national state was far less developed than today, crucial decisions about economic, religious and social policy were often settled at the municipal level. Cities were frequently the scenes of sudden tensions or bitter conflicts between ordinary citizens and the urban elite, and the threat of civic unrest often underlay the political dynamics of early modern cities. With vivid descriptions of events in cities in central Europe, England, France, Italy and Spain, this book outlines the forms of political interaction in the early modern city. Urban Politics in Early Modern Europe takes a fascinating comparative approach to the nature of conflict and conflict resolution in early modern communities throughout Europe.

Shaping History-Wayne te Brake 1998-07-31 As long as there have been governments, ordinary people have been acting in a variety of often informal or extralegal ways to influence the rulers who claimed authority over them. Shaping History shows how ordinary people broke down the institutional and cultural barriers that separated elite from popular politics in sixteenth- and seventeenth-century Europe and entered
fully into the historical process of European state formation. Wayne te Brake's outstanding synthesis builds on the many studies of popular political action in specific settings and conflicts, locating the interaction of rulers and subjects more generally within the multiple political spaces of composite states. In these states, says Te Brake, a broad range of political subjects, often religiously divided among themselves, necessarily aligned themselves with alternative claimants to cultural and political sovereignty in challenging the cultural and fiscal demands of some rulers. This often violent interaction between subjects and rulers had particularly potent consequences during the course of the Reformation, the Counter-Reformation, and the Crisis of the Seventeenth Century. But, as Te Brake makes clear, it was an ongoing political process, not a series of separate cataclysmic events. Offering a compelling alternative to traditionally elite-centered accounts of territorial state formation in Europe, this book calls attention to the variety of ways ordinary people have molded and shaped their own political histories.

The New Larned History for Ready Reference, Reading and Research-Josephus Nelson Larned 1922

The Orgasms of History- 2002 Every now and then, things explode. Riots, uprisings, revolutions, new and bizarre social groups spring up seemingly from nowhere. Our standard histories tend to treat these as oddities, if treated at all, or as misguided responses to hard times, limited by lack of responsible leadership. Here's a People's History to puncture that balloon. From the Cynics & Spartacus through the Levelers, Diggers & Ranters to the Revolution of the Carnation, the San Francisco Diggers, Red Guard of Shenwulian, Brethren of the Free Spirit, Guevara, the Provos & the Metropolitan Indians. Nearly 100 episodes of revolt and utopia which popped up without a plan or a leader from the ancient Greeks to the present. Fremion lives in
Paris where he participated in the May '68 orgasm.

Capitalists in Spite of Themselves—Richard Lachmann 2002 Here, Richard Lachmann offers a new answer to an old question: Why did capitalism develop in some parts of early modern Europe but not in others? Finding neither a single cause nor an essentialist unfolding of a state or capitalist system, Lachmann describes the highly contingent development of various polities and economies. He identifies, in particular, conflict among feudal elites—landlords, clerics, kings, and officeholders—as the dynamic which perpetuated manorial economies in some places while propelling elites elsewhere to transform the basis of their control over land and labor. Comparing regions and cities within and across England, France, Italy, Spain, and the Netherlands from the twelfth through eighteenth centuries, Lachmann breaks new ground by showing step by step how the new social relations and political institutions of early modern Europe developed. He demonstrates in detail how feudal elites were pushed toward capitalism as they sought to protect their privileges from rivals in the aftermath of the Reformation. Capitalists in Spite of Themselves is
a compelling narrative of how elites and other classes made and responded to political and religious revolutions while gradually creating the nation-states and capitalist markets which still constrain our behavior and order our world. It will prove invaluable for anyone wishing to understanding the economic and social history of early modern Europe. Capitalists in Spite of Themselves was the winner of the 2003 Distinguished Scholarly Publication Award of the American Sociology Association.

**Cromwell's Failed State and the Monarchy**-Timothy Venning 2020-08-19 Regicide, military dictatorship, war and rumors of war, opposition from all sides and collapse of a 'failed state': such is the story of Oliver Cromwell's unique experiment in the governance of Britain, following the English-British Civil Wars. The British state of the Three Kingdoms of England, Scotland and Ireland were united in the Protectorate, with Cromwell as Lord Protector, 1649 to 1660, but collapsed under the weight of huge turbulence and problems from all sides -
political and religious, constitutional, foreign military and naval threat, even from the Dutch, the Protectorate's natural ally. Finally, with Cromwell's death in 1658 - the 'heroic' Cromwell - and succession of the hapless Richard Cromwell, the 'failed state' collapsed with the restoration of the Stuart dynasty, in 1660 and royal, aristocratic and gentry rule.

Conflicts of Empires - Jonathan Israel 1997-07-01 The period between the late 16th and the early 18th centuries was one of tremendous, and ultimately decisive, shifts in the balance of political, military and economic power in both Europe and the wider world. In these essays Jonathan Israel argues that Spain's efforts to maintain her hegemony continued, for a number of reasons, to be centred on the Low Countries. This had as much to do with her attempts to check the rise of France and manipulate the affairs of Germany as it had with her long war with the Dutch. Spain's overwhelming dominance in the 1580s seemed unassailable, yet by the Peace of Utrecht in 1713 its greatness had been
eclipsed, leaving supremacy to Britain, France and, in commercial terms, the Dutch.

**Compromise**- Alin Fumurescu 2013-02-11 This book offers for the first time a conceptual history of compromise. Alin Fumurescu combines contextual historical analysis of daily parlance and a survey of the usage of the word from the end of the sixteenth century to the beginning of the eighteenth century in both French and English with an analysis of canonical texts in the history of political thought. This book fills a significant gap in the literature about compromise and demonstrates the connection between different understandings of compromise and corresponding differences in understandings of political representation. In addition, Fumurescu addresses two controversial contemporary debates about when compromise is beneficial and when it should be avoided at all costs. A better understanding of the genealogy of compromise offers new venues for rethinking basic assumptions regarding political representation and the relationship between individuals and politics.
